

KFMC-004**CUTAWAY : PRESSURE REDUCING VALVE**

Standard Pressure Reducing Valve, allows for convenient classroom training & demonstration of operation, construction and maintenance of an industrial control valve. Through careful planned sectioning and colour coding, complete internal configuration of the valve is exposed and showcased. Seal features and hardware locations have been retained in the cut section, allowing for hands-on training in maintenance.

Features & Specifications

- Sectioning of actual hardware (commonly used valves and models chosen for industrial relevancy)
- Cleaning, priming and painting using a high durability urethane coating
- Colour-coding of valve body, internal surfaces, seat and closure devices, using contrast colours
- Replacement, plated hardware, wherever required
- All seals and seats shown
- 10G Welded, formed-steel mounting stand with provision for stand mounting
- Fitting: 1 ¼"
- Material Gun metal/Steel
- Product Dimensions (L X W X H): 500 x 370 x 400 in mm
- Weight: @ 14 Kgs

Note : Specification & Photos can be altered without notice in our constant efforts for improvement
