

KVT-XX**VOCATIONAL TRAINER KIT****KVT-12****MICROWAVE OVEN TRAINER**

- Bare board Tested Glass Epoxy SMOBC PCB with Block Diagram.
- Attractive Metal Enclosure
- User Manual for Experiments

The **KVT-12** Microwave Oven Trainer Kit is an ideal training equipment to teach the operation of Microwave Oven. The complete Block of Microwave Oven is printed on single PCB for easy understanding of function of different blocks. Test points allow the analysis and monitoring of the signals in different sections. By using the fault simulation method, it is possible to introduce the most common breakdown and their rectification.

Specification:

- General Feature
 - ~ Type : Solo
 - ~ Capacity : 17 Ltrs
- Cooking Feature
 - ~ Defrost : Yes
- Body Feature
 - ~ Cavity : Stainless Steel Cavity
 - ~ Control Type : Mechanical
- Power Consumptions
 - ~ Power Consumption : 1200 Watts
 - ~ Power Level : 5
- Physical Features
 - ~ Dimension (W X H X D) : 452 X 262 X 335
- Additional Features
 - ~ Child Lock : Yes
 - ~ Alarm : yes
- 9 Test points are provided to analyze signals at various points.
- All ICS are mounted on IC Sockets

Note: Specifications and Photos can be altered without prior notice in our constant efforts for improvement.
